

# CKD Newsletter

December 2025

## WHAT IS IT?

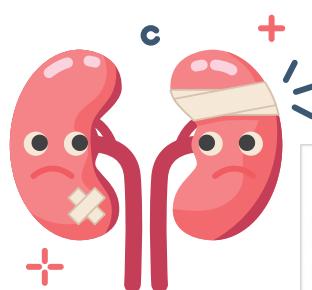

- An external pharma funded project for 12 months.
- To trial and explore solutions to support better management of patients with Chronic Kidney Disease in Primary Care

## GOALS?

- Earlier identification of patients with CKD
- Improved monitoring of patients with CKD
- More patients on Guideline Directed Medical Therapy (GDMT)

## What does this mean for Non-Clinical Staff?

- Non-Clinical staff will be able to access **training** and **resources** to support CKD reviews.
- It is vital **eGFR and uACR** monitoring is done at least **annually** in all high risk\* patients and those with CKD.

## Who to monitor?

CKD patients  
 \*High risk patients are anyone with:  
 Cardiovascular history (incl. heart attack, stroke, PVD, IHD, HF)  
 Diabetes  
 Hypertension

## What does this mean for Clinical Staff?

- Clinical staff will be able to access **training** and **resources** to support CKD reviews.
- A **monthly MDT** will be held (for each PCN) to discuss any queries or cases with a NGH nephrologist
- A **visualisation** will be available to support your CKD reviews within SystmOne. [Coming soon]

Questions or Comments & to access training and resources, please get in touch:
